THE RICHARDS JUDGMENT.

BERRY CHRISTMAS.

By the tone of r letter published in another place, signed, "Citizen," it would seem that the Richards brothers are, by some at least, held responsible for the loss of their lands. In justice, we give the following facts substantially as stated to us by J. H. Richards: Several years ago, W. J. Richards sued the L. L. & O. railr and company for damages on account flaving been unlawfully put off of a train between stations. The company made no defense and Richards was awarded a judgment of \$7,000. By the t-rms of this judgment it acted as a lien on all the lands owned by the e mpany until it should be paid. Mr. lijehards was unable to collect the amount from the company in any other way, so he took, under execution, a sufficient amount of land to secure himself. The railroad company, however, paid no attention to the lien or to executions, but went on selling the lands as if the title had not been clouded, giving warranty deeds for it. The company he says, is therefore the only party to blame. We publish a complete list of all the lands thus taken, on our last page, and the only way out of the ilty that we see is for the owners of the land to combine together and employ counsel to determine what action should or can be taken in the

good deed to our homes? We have een watching with some interest the gress of the perplexing land troubles in the eastern part of the county, and to a great extent have sympathized with the old settler and taxpayer. But here arises another trouble right at the thresh-hold of our own nomes, while it may not be as large in his daughter Mrs. C. Bacon, the first of the proportions as the one just referred to, et it easts a shadow over one or two hundred homes and grasps in its hawkment held by the Richard brothers against some of the L. L. & G. R. R lands, which have been sold to citizens some six or eight years ago, who held a warranty deed for the same, and on the same for the said number of years. But when we called this year to pay our tax, we had no land, the little that the pay our tax, we had no land, the little that the pay our tax is the payent to pay our tax. The payent to pay our tax is the fact the fact west property.

Mr. B. B. Lee is building an addition to his have improved the land and paied tax to pey our tax, we had no man, the house taked been transferred to J. H. house.

Mr. Will H. Dellart is fixing up and will be and to our great surprise.

Mr. Will H. Dellart is fixing up and will be a seed to the house formerly occupied by the there was a judgment against it large move fato the house formerly occupied by the change in our business.
